SUMMARY

I build products that work, people love, and change how things get done. From shipping ML-driven pricing at tiket.com that lifted Rp250M/month in revenue, to spinning off a university research lab into Klaussa — an AI legal-tech platform used by 200+ lawyers and backed by Google, NVIDIA, and UI Incubate — I turn vision into products that are economically real and built to last. YLI Wave 17 Awardee. 16+ competition wins nationally and internationally.

EXPERIENCE

Klaussa Indonesia

2025 – 2026

Kapellmeister (Founder / CEO) · AI Legal-Tech Startup

- AI co-pilot for lawyers used by 200+ corporate lawyers, institutions, and students — turning weeks of contract analysis into 15 minutes
- Architected an agentic AI system: multi-step contract review agents, tool-calling agents for legal research, and orchestrator/sub-agent architecture using LangChain and Gemini with on-premise model hosting for data privacy compliance
- Built a document extraction pipeline processing 300,000+ court decisions, contracts, and regulations — PDF parsing, OCR, and custom chunking strategy optimised for legal document structure
- Designed system architecture for hundreds of concurrent users: rate limiting, Redis caching layer, GCP, and PostgreSQL with multi-tenant isolation
- Established accuracy benchmarks for clause extraction and latency evaluation to drive iterative model improvement
- Implemented AI cost observability via LangFuse: cost-per-query tracking, token cost per user/feature, and spend thresholds
- Built engineering from zero to one — hired and shaped a 7-person team, defined the full tech stack, established CI/CD and code review culture
- Secured Rp300M preseed from UI Incubate; accepted into Google for AI Startups and NVIDIA Inception Program

Superbank

Jan – Mar 2026

Project Management Office · Seasonal (YLI x McKinsey Breakthrough Leadership Project)

- Implemented strategy to enhance platform adoption and drove internal communications to achieve SuperWays of Working as the company scaled rapidly

tiket.com

Mar – Sep 2025

Product Management — Pricing · Internship

- Initiated and owned an ML-based pricing initiative for flight-tied insurance and train products — wrote EDD, defined feature specs, collaborated with data scientists on model selection, defined success metrics; delivered Rp250M/month revenue lift
- Led a deployed RL-inspired user segmentation system: owned system design and drove cross-stakeholder implementation using purchase history, price sensitivity, and multi-product past transactions to enable customised pricing per user
- Initiated a behavioral economics nudge strategy backed by A/B testing — urgency cues, social proof, anchoring, and loss aversion framing; key nudge surfaced price trajectory data showing cost spikes in the last 30 days before departure
- Conducted 5-month competitor price analysis aggregating data across days before departure to improve coverage and reduce cost, enabling dynamic competitor-aware pricing

Kalana Consulting

2026

Project Lead · Full-time Remote

- Leading client consulting projects end-to-end; Top 5 in AI Incubation for Public Sector — British Embassy Jakarta x UK-Indonesia Tech Hub
- Advised a game studio on product development strategy — roadmap prioritisation, go-to-market, and structuring development from concept to launch
- Facilitated connections with investors and industry partners from Garena, Xbox (Microsoft), and Publicis

- Owned product and technical roadmap — got a previously immobile humanoid robot walking within 1 month
- Managed team structure, workload, and mentorship coordination with SNUST Korea through a resource-constrained, near-disbanded period with minimal sponsorship
- Shipped 9 robocar iterations; led team to 3 national competitions achieving Top 16 and Top 8 placements

RISTEK Fasilkom UI

2024

- Vice Director of Business Growth, Business Growth and Partnerships Student Interest Group · PIC Datathon 2024
- Directed partnership development with 10+ institutions — partnerships valued at over \$49,000; managed contract timelines, deliverables, and stakeholder communications
 - Spearheaded academic collaboration between Fasilkom UI, University of Sussex, and Monash University
 - Managed end-to-end transformation of Datathon into the largest student-led data competition in Indonesia — 800+ participants from UI, ITB, UGM, Oxford, NTU, NUS, UoFT, and Monash

Ragamaya VR — Universitas Indonesia x SMPK St. Ignatius Loyola, Labuan Bajo

2025 – 2026

- Co Principal Researcher
- Pitched and secured Rp150,000,000 in research funding; leading VR experience preserving NTT folk stories built with Unity and Blender
 - Led institutional talks with Kepala Dinas Pemuda, Pendidikan, dan Olahraga Manggarai Barat; advancing TRL from TKT 4 to TKT 5

EDUCATION

Universitas Indonesia

Sep 2022 – 2026

Bachelor of Computer Science, Faculty of Computer Science (Fasilkom UI) · GPA 3.89 / 4.00

Nanyang Technological University Singapore

Jul 2025

INSPIRASI-NTU Summer Program · Sustainability, Smart City, Circular Economy · LPDP Scholar (SGD 5,000)

SKILLS

Product: Jira, Confluence, Amplitude, Figma, Postman, Notion, EDD, A/B Testing	AI / Agentic: LangChain, LangFuse, Gemini, Prompt Engineering, On-premise LLM	ML / Data: PyTorch, Scikit-Learn, Pandas, NumPy, BigQuery, RL Simulation
Infra: GCP, Docker, PostgreSQL, Redis, CI/CD	Languages: Python, JavaScript, Java, Dart	Domain: Pricing Strategy, Behavioral Economics, Legal-Tech, Game Industry, B2B SaaS

SELECTED ACHIEVEMENTS

[INTL] Top 20 · Microsoft Elevate AI Impact Challenge (2026)	[NATL] 1st Runner Up · ShARE UI Business Plan Competition (2024)
[NATL] Top 5 · AI Incubation for Public Sector — British Embassy x UK-Indonesia Tech Hub (2026)	[NATL] 1st Winner · Management Exposed, FEB UI (2023)
[NATL] Gold Medal · GEMASTIK 2024 Software Development (2024)	[NATL] 1st Runner Up · Tanoto Future Leader Startup and Pitching (2023)
[INTL] Finalist Top 10 · StudentxCEOs International Business Case (2024)	[INTL] Young Leaders for Indonesia — Wave 17 Awardee, YLI Foundation (2025)
[INTL] Finalist Top 6 · International Ganesha Business Case Competition (2024)
