EXPERIENCE

[Klaussa Indonesia](#)

Aug 2025 – Jun 2026

CEO / Product Principal · AI Legal-Tech Startup

- Conducted user discovery with **tens of lawyers, law students, and legal NGOs**, identifying data security, accuracy, and removal of menial tasks as core needs; translated findings into roadmap priorities using **impact/effort scoring and OKRs** across engineering and sales/marketing
- Grew from **0 to 200+ users within 2 months** across paying institutions, legal startups, legal consultancies, and law students, while iterating on feedback by **removing a complex pipeline feature** and decomposing a monolithic workflow into simpler atomic features
- Architected an **agentic AI system** for contract review and legal research using LangChain and Gemini with orchestrator/sub-agent flows, on-premise model hosting for data privacy compliance, and **AI cost observability via LangFuse** for cost-per-query and spend-threshold tracking
- Built a legal document extraction pipeline processing **300,000+ court decisions, contracts, and regulations** through PDF parsing, OCR, and custom chunking, and designed platform infrastructure for **hundreds of concurrent users** with rate limiting, Redis, GCP, PostgreSQL, and multi-tenant isolation
- Built engineering from **zero to one** by hiring and shaping a **7-person team**, defining the tech stack, and establishing CI/CD and code review culture; secured **Rp300M preseed** from UI Incubate and earned acceptance into **Google for AI Startups** and **NVIDIA Inception Program**

[Ragamaya VR](#) — Universitas Indonesia x SMPK St. Ignatius Loyola, Labuan Bajo

Jun 2025 – Jun 2026

Co Principal Researcher

- Pitched and secured **Rp150,000,000 in research funding** to build a VR learning experience preserving NTT local folklore, leading the project from concept definition through deployment planning with Unity and Blender
- Established end-to-end product discovery and requirement gathering by collecting local folklore source material, structuring **FGDs**, defining user and learning requirements, and translating qualitative insights into product direction, feature scope, and content priorities
- Planned field execution for site visits to a **remote island community**, including local-dialect considerations, stakeholder engagement, and operational preparation, while building cross-faculty collaboration across **Faculty of Cultural Sciences, Faculty of Computer Science, and Faculty of Engineering**
- Guided the project as product lead by setting roadmap, milestones, scope, and delivery priorities; aligned researchers, creators, and external stakeholders, managed tradeoffs across content, UX, and technical feasibility, and built partnerships with **Dinas Pemuda, Pendidikan, dan Olahraga** while advancing the project from **TRL 4 to TRL 5**
- Successfully deployed the VR experience in a frontier school in one of Indonesia's poorest provinces, creating learning impact for **300+ students and teachers**

[Kalana Consulting](#)

Jan – Jun 2026

Project Lead · Full-time Remote

- Leading client consulting projects end-to-end; **Top 5 in AI Incubation for Public Sector** — British Embassy Jakarta x UK-Indonesia Tech Hub
- Advised game studios on product development strategy — for one studio, helped secure **Rp300M in funding** by presenting to venture capital and government auditors, ensuring regulatory compliance, economic viability, and roadmap alignment with the invested budget; for another, realigned the product roadmap, economic viability strategy, market sizing, vertical-slice requirements, and storytelling narrative, contributing to a **game development competition win**
- Facilitated connections with investors and industry partners from **Garena, Xbox (Microsoft), Sony, Tencent**, as well as media and community partners, distributors, and publicists

[Superbank](#)

Jan – Mar 2026

Project Management Office · Seasonal (YLI x McKinsey Breakthrough Leadership Project)

- Worked under the **Project Management Office (PMO)** and was mentored by a **McKinsey Associate**, presenting directly to the **CHRO** while coordinating cross-functionally with HR and **11 department representatives**
- Conducted **qualitative data gathering** across departments to identify adoption barriers and organizational needs, then translated findings into strategy and internal communications to drive **platform adoption** and reinforce **SuperWays of Working** as the company scaled rapidly

Product Management — Pricing · Internship

- Led the **ML-based pricing initiative** for flight-tied insurance and train products as the driving PM — wrote EDD, defined feature specs, aligned data scientists on model selection, owned success metrics; team effort delivered **Rp250M/month revenue lift**
- Led a deployed **RL-inspired user segmentation system**: owned system design and drove cross-stakeholder implementation using purchase history, price sensitivity, and multi-product past transactions to enable customised pricing per user
- Initiated a **behavioral economics nudge strategy** backed by A/B testing — urgency cues, social proof, anchoring, and loss aversion framing; key nudge surfaced price trajectory data showing cost spikes in the last 30 days before departure
- Defined the **competitor price scraping strategy** to improve data quality in price comparisons between tiket.com and other OTAs, increasing scraping coverage by **190%** with only a **10% increase in scraping budget**, enhancing pricing competitiveness and inventory coverage

[Gladiatos Robotics, Universitas Indonesia](#)

Jun 2024 – Jun 2025

Managing Director

- Owned product and technical roadmap — got a previously immobile humanoid robot **walking within 1 month**
- Managed team structure, workload, and mentorship coordination with SNUST Korea through a **resource-constrained, near-disbanded period** with minimal sponsorship
- Shipped **9 robocar iterations**; led team to 3 national competitions achieving **Top 16 and Top 8** placements

[RISTEK Fasilkom UI](#)

Jan – Dec 2024

Vice Director of Business Growth, Business Growth and Partnerships Student Interest Group · PIC Datathon 2024

- Directed partnership development with **10+ institutions** — partnerships valued at over **\$49,000**; managed contract timelines, deliverables, and stakeholder communications
- Spearheaded academic collaboration between Fasilkom UI, **University of Sussex, and Monash University**
- Managed end-to-end transformation of Datathon into the **largest student-led data competition in Indonesia — 800+ participants** from UI, ITB, UGM, Oxford, NTU, NUS, UoFT, and Monash

EDUCATION

Universitas Indonesia

Sep 2022 – 2026

Bachelor of Computer Science, Faculty of Computer Science (Fasilkom UI) · GPA 3.89 / 4.00

Nanyang Technological University Singapore

Jul 2025

INSPIRASI-NTU Summer Program · Sustainability, Smart City, Circular Economy · LPDP Scholar (SGD 5,000)

SKILLS

Product: Jira, Confluence, Amplitude, Figma, Notion, PRD, EDD, OKR, User Story, Roadmap, Sprint, A/B Testing, User Research

AI / Agentic: LangChain, LangFuse, Gemini, Prompt Engineering, On-premise LLM

ML / Data: PyTorch, Scikit-Learn, Pandas, NumPy, BigQuery, RL Simulation

Infra: GCP, Docker, PostgreSQL, Redis, CI/CD

Languages: Python, JavaScript, Java, Dart, SQL

Domain: Pricing Strategy, Behavioral Economics, Legal-Tech, Game Industry, B2B SaaS

SELECTED ACHIEVEMENTS

[NATL] Gold Medal · GEMASTIK 2024 Software Development (2024)

[NATL] 1st Winner · Management Exposed, FEB UI (2023)

[NATL] 1st Runner Up · ShARE UI Business Plan Competition (2024)

[NATL] 1st Runner Up · Tanoto Future Leader Startup and Pitching (2023)

[NATL] Young Leaders for Indonesia — Wave 17 Awardee, McKinsey & Company x YLI Foundation (2025)

[NATL] Top 5 · AI Incubation for Public Sector — British Embassy x UK-Indonesia Tech Hub (2026)

[INTL] Finalist Top 6 · International Ganesha Business Case Competition (2024)

[INTL] Finalist Top 10 · StudentxCEOs International Business Case (2024)

[INTL] Top 20 · Microsoft Elevate AI Impact Challenge (2026)
